

Sectional Garage Doors

Storm•Safe™

Home Protection Garage Doors

Australian designed for
Australia's worst conditions

With a unique wind-lock design, our Storm•Safe™ designed Safe•T•Glide™ sectional garage doors provide homes in cyclone affected & storm prone regions with the ultimate in safety and durability.

Why Storm•Safe™?

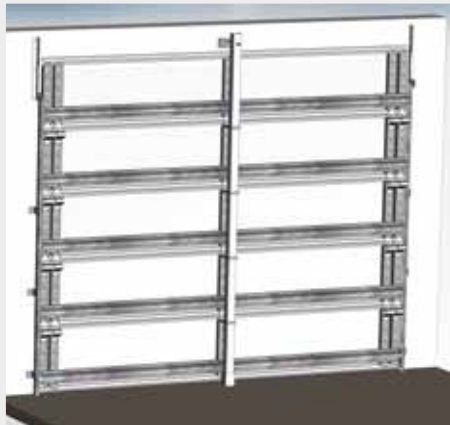

- Independently tested to comply to AS/NZS 4505: 2012 for C1 & C2 regions
- Unique wind-lock design for ultimate strength
- Lightweight aluminium posts
- Convenient storage system
- No remaining tripping hazards

Important: If your garage door is the only entry/exit point to your garage, this style of door cannot be used. If this is the case, we recommend using the Storm•Safe™ GlideRol•a•Door™

Simple, easy and safe

Securing your garage door is a quick and easy process:

1 Secure the post shoe to the floor with the locating bolts provided.

2 Secure top of the post to the head mount bracket and the bottom of the post into the post shoe.

3 Secure the post to the door with the U brackets and bolts provided.

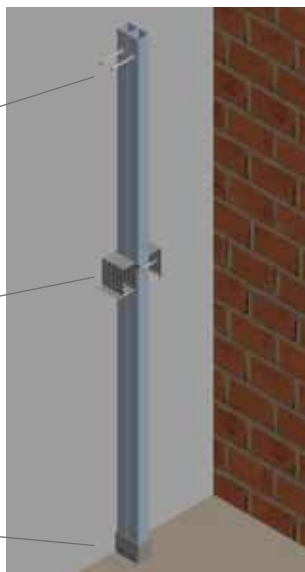

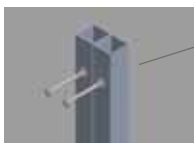

Once installed, you can enjoy peace of mind knowing that your door and what's behind it, is safe and secure.

Maximum Door Width for C1 & C2 Wind Classification

Wind Classification	Ultimate Design Wind Pressure (kPa)		Max Door Width	Max Force Fx
	Inward	Outward		
C1 & C2	2.92	-3.04	5500mm	2.58 kN/m

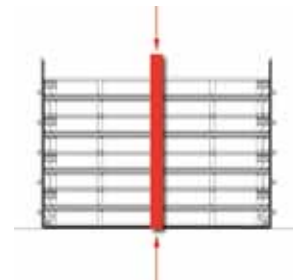

Easy and Convenient to Store
