# Gliderol Self-Storage Solutions

Industrial continuous sheet curtain roller door

THE GLIDEROL INDUSTRIAL ROLLER DOOR IS DESIGNED AND MANUFACTURED TO MEET THE HIGH SECURITY AND SAFETY STANDARDS DEMANDED IN THE SELF-STORAGE INDUSTRY. IF YOU'RE LOOKING FOR A PREMIUM SOLUTION FOR PROTECTING YOUR CUSTOMERS' GOODS, THEN LOOK NO FURTHER.

Gliderol's Industrial Roller Door has been designed with your business's requirements in mind. From durability to ease of use, this door is the perfect solution for your business.

With an aluminum bottom rail and steel sheet panels, you can rest assured that Gliderol doors are reinforced against intruder penetration. Plus Gliderol's doors are designed to provide reliable service for years to come, with counterbalanced spring assembly, allowing easy and reliable operation.

Adding style and character to any building, while maximising space, Gliderol's Industrial Roller Door is truly the perfect fit for your business and commitment to meeting customer needs.

## Features & Benefits

- Strong and reliable
- Durable weatherseal
- Suits most openings
- Meets all your needs
- Can be fitted with either Gliderol Self-Storage locks or your own company specific locks for convenience

## Gliderol Roller Door Features

### Roller Door Curtain

Gliderol roll-formed steel sheet panels provide strength and quality in design to enhance overall appearance.

### Polyglide

Developed by Gliderol specifically for effortless roller door operation with minimal noise and friction. Polyglide has been tested for 22 000 cycles of continuous use, the equivalent of more than 20 years of service based on three cycles a day.

### Drum Wheel

The Gliderol nylon drum wheel has been developed over time into a hard-wearing high performance component.

### Spring Assistance

A Gliderol spring assisted mechanism offers precise balance between the weight of the curtain and the upward pull of the springs, regardless of the position of your door.

### Direct Chain Wheel

Constructed of glass reinforced nylon, the direct chain wheel ensures safety is maintained at all times.

### Bottom Rail

The aluminium bottom rail has been specifically designed to reinforce your Gliderol Roller Door against intruder penetration.

## Operation

Compatible with IGDU operator. This heavy duty industrial operator has been specifically engineered for large doors and features Gliderol's state-of-the-art obstruction detection system. Please see our Gliderol Operators brochure for more information.
